

SWITCHES THAT MOUNT VIRTUALLY ANYWHERE

INTRODUCING THE INDUSTRY'S FIRST GIGABIT ETHERNET POE+ CLICK AND EASY-MOUNT SWITCHES

The 8-port PoE+ Click Switch & Easy-Mount Switch join the NETGEAR Switch family

Their "Virtually Anywhere™" mounting system allows installation of PoE+ ports exactly where they're needed and where other switches cannot go.

8-Port Gigabit Ethernet Click Switch w/4-Ports PoE+ (GSS108EPP)

- Virtually Anywhere Mounting system (Click mounting)
- 4-way placement of switch - vertical, horizontal, flat or perpendicular
- 4 PoE+ ports for a total of 47W
- Fanless for silent operation

8-Port Easy-Mount Gigabit Ethernet PoE+ Switch (GS408EPP)

- Virtually Anywhere Mounting system (Easy mounting)
- 4-way placement of switch - vertical, horizontal, flat or perpendicular
- 8 PoE+ ports for a total of 124W for denser areas with PoE devices
- Plenum-rated for in-ceiling mounting

Introducing the PoE+ 8-port Click Switch (GSS108EPP)

- 4 PoE+ (802.3at or 802.3af) and 4 non-PoE ports for flexible deployment
- Fanless silent operation and Energy Efficient Ethernet
- Web Managed (Plus) Switch features including Port Trunking/Link Aggregation (manual LAGs) and per port PoE controls for remote power management of PoE-connected devices
- Advanced QoS for traffic prioritization & IGMP snooping support for multicast operation
- Lifetime limited warranty and lifetime support chat

Introducing the Full PoE+ 8-port Easy-Mount Switch (GS408EPP)

- 8 PoE+ (802.3at or 802.3af) ports for flexible deployment of denser PoE+ configurations
- Ideal for Wave2 AC WiFi Access Points, Pan/Tilt/Zoom cameras and other Power-hungry devices
- Web Managed (Plus) Switch features including Port Trunking/Link Aggregation (manual LAGs) and per port PoE controls for remote power management of PoE-connected devices
- Advanced QoS for traffic prioritization & IGMP snooping support for multicast operation
- Rack-mount two Easy-Mount switches in a single 1U slot
- Lifetime limited warranty and lifetime support chat
